

Gallagher Fluid Seals, Inc. Acquires Quality Seals

Acquisition will help expand Gallagher's industry-leading service and capabilities

King of Prussia, PA. January 3, 2019/News and Updates/ – [Gallagher Fluid Seals, Inc.](#), a global distributor and manufacturer of fluid sealing products located in the Greater Philadelphia area recently made an acquisition to further expand its industry-leading service and capabilities.

On January 2, 2019, Gallagher Fluid Seals, Inc. acquired [Quality Seals](#) based out of Bethel, Connecticut. The entire Gallagher team is excited about bringing in the Quality Seals family to start the new year.

For more than 45 years, Quality Seals has been a stocking distributor of sealing products and solutions serving the industry with a wide selection of O-rings, gaskets, and more from some of the best manufacturers in the world - both domestic and global. In addition to Gallagher Fluid Seals, Quality Seals strives for excellence. That's why both have a quality-centric focus with a variety of [ISO Certificates](#).

The transition for Quality Seals' existing customers will be smooth and precise. For those existing customers, they will continue to be serviced by members of the Bethel, Connecticut office.

This strategic acquisition will give customers - from both companies - the ability to explore new product lines while simultaneously allowing greater access to existing products & partners. It will also open a custom engineering channel to both new and existing customers of Quality Seals; they will now be able to utilize Gallagher's Engineering Department for tailored solutions to their most difficult and challenging applications.

Stay tuned for more info soon!
